## For the most complete nursing resources, start here.

ProQuest Nursing & Allied Health Source provides users with reliable health care information covering nursing, allied health, alternative and complementary medicine, and much more. This versatile database is designed to meet the needs of researchers at health care facilities, as well as nursing and allied health programs at academic institutions.

ProQuest Nursing & Allied Health Source provides more than 650 full-text publications, with numerous evidence-based resources from more than 70 health fields, including:

- Cytology
- Consumer Health
- Hematology
- Histology
- Nuclear Medicine
- Nursing
- Nutrition
- Oncology
- Orthopedics
- Pediatric Care
- Pharmacology
- Public Health
- Radiology
- Traumatology

In addition, ProQuest Nursing & Allied Health Source endorses scholarship by including over 12,000 full-text dissertations in nursing and related fields from top universities.

### Remarkable titles. From the finest sources in the world.

The need for current and comprehensive information is especially critical in matters of health and wellness. ProQuest Nursing & Allied Health Source features a variety of renowned publications—some addressing broad content areas, while others focus on very specific areas of study. Among the titles are scholarly journals and trade publications:

- *Academic Emergency Medicine*
- *American Journal of Occupational Therapy*
- *American Journal of Public Health*
- *Association of Operating Room Nurse Journal (AORN)*
- *Applied Radiology*
- *Canadian Journal of Respiratory Therapy*
- *Clinical Laboratory Science*
- *Dental Assistant*
- *Journal of Allied Health*
- *Journal of Athletic Training*
- *Journal of the Canadian Association of Radiologists*
- *Journals of Gerontology*
- *Journal of Gerontological Nursing*
- *Journal of Nursing Scholarship*
- *The Journal of Nutrition*
- *Journal of Psychosocial Nursing & Mental Health Services*
- *Journal of Rehabilitation*
- *Journal of Speech, Language, and Hearing Research*
- *New England Journal of Medicine*
- *Neurophysiology*
- *Nursing Economics*
- *Oncology Nursing Forum*
- *Orthopaedic Nursing*
- *Perfusion*
- *Physical Therapy*
- *Physiological Research*
- *Rehabilitation Nursing*
- *The Canadian Journal of Occupational Therapy*
- *The Lancet*
- *Trauma*
- *and hundreds more!*

### ProQuest Nursing & Allied Health Source

**The simplest, smartest way to search Nursing & Allied Health literature**

ProQuest Nursing & Allied Health Source makes it easy to find reliable healthcare information. This database provides full text journals, evidence based resources, and dissertations to support the study of the many aspects of nursing or the allied health professions, including physical therapy, radiography, dietetics, dental hygiene, and the clinical laboratory sciences.

Begin Searching ▶

**Browse Evidence-Based Resources**

Evidence-Based Resources from the Joanna Briggs Institute

- [Evidence Summaries](#)
- [Systematic Reviews](#)
- [Best Practice Information Sheets](#)

**Competency and Training Resources**

- [Cultural Competency Briefs: Religion, Ethnicity and Care](#)
- [Video Training Programs](#)

**Browse Study Paths**

Take a study short cut. Use our topic trees to find full text articles recommended by specialists in these fields:

- [Practical Nursing \(US\)](#)
- [Registered Nursing \(US\)](#)

**The ProQuest Nursing & Allied Health Source home page provides users with easy access to evidence-based resources, competency training, and study paths, helping users quickly locate research results on topics they are studying.**

“This thorough, well-organized database covers periodicals ranging from nursing (*Critical Care Nurse, Journal of Nursing Scholarship*) and allied health (*Cardiopulmonary Physical Therapy Journal, Dental Assistant*) to mainstream medical journals such as *Brain* (Oxford) and *The Lancet*. Users will appreciate the explanations of search concepts and publication types used.

**Summing Up: Highly recommended.** Academic libraries, particularly ones with medical sciences programs, supporting lower-level undergraduates through professionals/practitioners.”

– J. King, San José City College, *CHOICE*, October 2008

## Evidence-Based Nursing Content

From leading provider Joanna Briggs Institute

We are pleased to announce the addition of evidence-based nursing information from The Joanna Briggs Institute (JBI). These include systematic reviews, evidence summaries, best practice information sheets, and more. The JBI's evidence-based approach opens a new world of education resources, with critical appraisal and meta-analysis that is highly respected and unquestioned in the field.

### Access to JBI Connect

In addition to Joanna Briggs Institute's content, ProQuest Nursing & Allied Health Source customers receive access to JBI Connect, which provides additional evidence-based tools and resources.

- RAPid – A widely respected tool that teaches students to critically appraise evidence for good nursing practices and offers them the possibility of publishing in the RAPid Library
- SUMARI – A modular software package designed to help nursing academics conduct systematic health reviews using evidence-based methods

## ProQuest Nursing & Allied Health Source also includes the following exciting new additions:

### INTRODUCING CultureVision™ Address cultural differences in patient care

Every religion and culture perceives health and illness differently. By the year 2050, the U.S. Census Bureau estimates that various ethnic groups will total just over half (51%) of the population. Meaning that more patients with varying cultural customs, beliefs, and practices will be in the health care system, a challenge for health care providers.

CultureVision provides the knowledge necessary for health care professionals to treat all patients appropriately, within their cultural or religious needs. With ProQuest Nursing & Allied Health Source and CultureVision, health care providers are just three clicks from:

- Questions to ask that will yield better health outcomes
- Discovering the prevalence of diseases within certain populations
- Reports for 30 ethnicities and 11 religions, updated monthly

**JBI's RAPid training tool enables users to evaluate research articles and write structured research findings to publish on the JBI interface.**

## NEW! - Medcom Training Videos A great support tool for nurse training

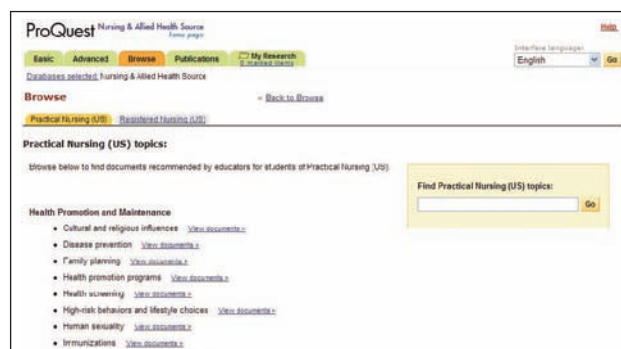

Medcom is a unique resource of video clips covering assessment, procedure, prevention, and other nursing topics. The videos are offered in chaptered form, for information that can be quickly and easily followed. All clips are indexed with metadata to provide highly relevant videos in search results.

**Video content on assessment, procedures, care management, anatomy, prevention, and other nursing topics helps bridge the gap between theoretical and practical learning.**

## Study Paths

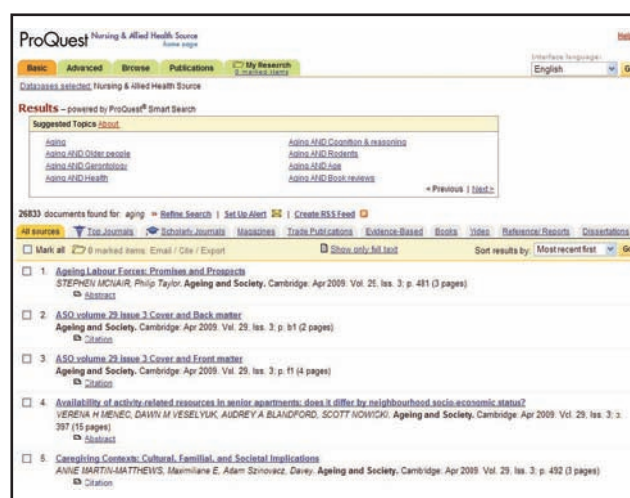

We help create the perfect method for finding topics and recommended reading. Our intuitive curriculum topic tree connects users to useful information. Also, our editorially selected full-text articles act as ready-made packages for users writing essays on specific topics. We have selected the most relevant results for a wide range of topics.

**The intuitive curriculum-based topic trees quickly connect users to articles selected by a team of nurse educators.**

## Search quickly. Find efficiently.

Thirty index fields give users several ways to pursue their research. Fields include article title, author, author affiliation, publication, volume, issue, date, abstract, subject, article type, image caption, language, and many others.

**ProQuest Nursing & Allied Health Source offers tabbed links to a wide variety of content results.**

Enhanced searching capabilities make it easy for you and your users to find the information you want:

- Users can browse by subject, publication title, person, company, and geographic location
- Thanks to ProQuest® Smart Search, the top of the results page shows suggested topics that help focus the search
- The “More like this” option displays related information on the user’s topic
- Intuitive date-range options help users quickly select the exact range they want
- Citations are formatted in the style of the user’s choice
- When users finish their research engagement, the “My Research” feature records their marked articles, previous searches, and the publications they visited, all in one easy-to-find location

789 E. Eisenhower Parkway
