

ProQuest Science Journals

For the definitive applied and general sciences online resource, start here.

ProQuest Science Journals provides unmatched research support for both the applied and general sciences. Perfect for students and professionals in academic, government, and public research environments, this impressive collection of scientific journals offers users a one-stop resource for their research needs.

With coverage dating back to 1986, ProQuest Science Journals features over 600 titles, with more than 500 available in full text. In full-text format, researchers have access to all the charts, diagrams, graphs, tables, photos, and other graphical elements so vital to scientific and technical literature.

These journals cover hundreds of topics relating to all major fields of study, including:

- Physics
- Engineering
- Astronomy
- Biology
- Earth science
- And more

For quick searches and accurate results, start here.

ProQuest's enhanced searching capabilities make it easy for both novice and expert searchers to find the information they want:

- Powered by ProQuest Smart Search, ProQuest Science Journals displays suggested topics to aid in directing or narrowing a search for quick, optimal results.
- Email alerts notify users whenever content of interest to them becomes available.
- The "My Research" feature records selected articles, previous searches, and publications visited, in a single location. Users can email documents, create bibliographies, and more.
- The "Find More Documents Like This" feature automatically displays related information on a topic.
- Topics can be browsed by subject, publication title, person, company, and geographic location.
- Citations can be formatted automatically in a choice of styles: AMA; APA; Chicago/Turabian/Harvard: Author-Date; Chicago/Turabian: Humanities; MLA; and Vancouver.
